

External Complaints Handling Policy

1. Policy Statement

Introduction

UrbanGrowth NSW Development Corporation (**UrbanGrowth NSW**) is committed to providing services of the highest quality. Key to meeting this commitment is using feedback from those who use or are affected by UrbanGrowth NSW's services as opportunities to improve the quality of the services provided. Feedback can be in the form of a complaint, a compliment or a suggestion.

From time to time UrbanGrowth NSW receives complaints and allegations about the decisions and actions of members of staff or practices, policies and procedures of UrbanGrowth NSW. Regardless of how the dissatisfaction may be expressed, it is a complaint that needs to be attended to.

The Policy should be read in conjunction with the External Complaints Handling Procedure and supporting templates.

5. Key information about how UrbanGrowth NSW handles complaints

Three tiered approach to complaint handling

The NSW Ombudsman has provided a model approach to complaint handling which consists of three Tiers. The Tiered approach is designed to lead to fast and effective resolution of complaints at the earliest opportunity. The aim is to promote complainant satisfaction and ensure the most efficient use of resources.

This Tiered approach to complaint handling has been adopted within UrbanGrowth NSW and is described in more detail in the procedures.

We aim to resolve complaints at the **first Tier**, the frontline. Wherever possible, staff will be adequately equipped to respond to complaints; including being given appropriate authority, training and supervision.

Where this is not possible, we may decide to escalate the complaint to a more senior officer within UrbanGrowth NSW. This **second Tier** of complaint handling will provide for the following internal mechanisms:

- assessment and possible investigation of the complaint and decision/s already made; and/or
- facilitated resolution (where a person not connected with the complaint reviews the matter and attempts to find an outcome acceptable to the relevant parties).

The **third Tier** is when an external investigation is instigated.

Circumstances when UrbanGrowth NSW may not action a complaint

UrbanGrowth NSW may choose not to accept or action complaints relating to matters that are very old, which have been previously dealt with or finalised, are outside its jurisdiction or which are vexatious or frivolous.

Key Steps in handling an external complaint

Facilitating complaints

People focus

We are committed to seeking and receiving feedback and complaints about our services, systems, practices, procedures, products and complaint handling.

Any concerns raised will be dealt with within the time frame set out in the procedures.

People making complaints will be:

- provided with information about our complaint handling process
- provided with multiple and accessible ways to make complaints
- listened to, treated with respect by staff and actively involved in the complaint process where possible and appropriate, and
- provided with reasons for our decision/s and any options for redress or review.

No detriment to people making complaints

We will take all reasonable steps to ensure that people making complaints are not adversely affected because a complaint has been made by them or on their behalf.

Anonymous complaints

We accept that people may want to make an anonymous complaint. If a complainant chooses not to identify themselves or provide contact details it may make it difficult for UrbanGrowth NSW to investigate the issues.

Accessibility

We will ensure that information about how and complaints are easily understood and accessible to everyone, particularly people who may require assistance.

If a person prefers or needs another person or organisation to assist or represent them in the making and/or resolution of their complaint, we will communicate with them through their representative if this is their wish. Anyone may represent a person wishing to make a complaint with their consent (e.g. advocate, family member, legal or community representative, member of Parliament, another organisation).

Keeping accurate records of complaints

As well as UrbanGrowth NSW's obligations under the *State Records Act 1998*, keeping accurate records enables a complaint to be reviewed efficiently. It also means UrbanGrowth NSW has reliable data about complaints, which can be used to improve services.

Using complaint data to improve services and inform planning

A key function of any complaints process is to help identify areas that need improvement. Careful analysis of complaint sources and trends will assist decisions about planning and resourcing those improvements.

Responding to complaints

Early resolution

Where possible, complaints will be resolved at first contact with UrbanGrowth NSW.

Responsiveness

We will promptly acknowledge receipt of complaints.

We will assess and prioritise complaints in accordance with the urgency and/or seriousness of the issues raised. If a matter concerns an immediate risk to safety or security the response will be immediate and will be escalated appropriately.

We are committed to managing people's expectations, and will inform them as soon as possible, of the following:

- the complaints process
- the expected time frames for our actions
- the progress of the complaint and reasons for any delay
- their likely involvement in the process, and
- the possible or likely outcome of their complaint.

We will advise people as soon as possible when we are unable to deal with any part of their complaint and provide advice about where such issues and/or complaints may be directed (if known and appropriate).

We will also advise people as soon as possible when we are unable to meet our timeframes for responding to their complaint and the reason for our delay.

Objectivity and fairness

We will address each complaint with integrity and in an equitable, objective and unbiased manner. We will ensure that the person handling a complaint is different from any staff member whose conduct or service is being complained about. Conflicts of interests, whether actual or perceived, will be managed responsibly. In particular, internal reviews of how a complaint was managed will be conducted by a person other than the original decision maker.

Responding flexibly

UrbanGrowth NSW staff are empowered to resolve complaints promptly and with as little formality as possible. We will adopt flexible approaches to service delivery and problem solving to enhance accessibility for people making complaints and/or their representatives.

We will assess each complaint on its merits and involve people making complaints and/or their representative in the process as far as possible.

Confidentiality

We will protect the identity of people making complaints where this is practical and appropriate.

In addition to staff members' obligations under the *Privacy and Personal Information Protection Act 1998*, staff must respect requests from a complainant for a complaint to be handled confidentially or anonymously.

Personal information that identifies individuals will only be disclosed or used by UrbanGrowth NSW as permitted under the relevant privacy laws, secrecy provisions and any relevant confidentiality obligations.

Managing the parties to a complaint

Complaints involving multiple agencies

Where a complaint involves multiple organisations, we will work with the other organisation/s where possible; to ensure that communication with the person making a complaint and/or their representative is clear and coordinated.

Where our services are contracted out, we expect contracted service providers to have an accessible and comprehensive complaint management system. We take complaints not only about the actions of our staff but also the actions of service providers.

Complaints involving multiple parties

When similar complaints are made by related parties we will arrange to communicate with a single representative of the group.

Empowerment of staff

All staff managing complaints are empowered to implement our complaint management system as relevant to their role and responsibilities.

Staff are encouraged to provide feedback on the effectiveness and efficiency of all aspects of our complaint management system.

Managing unreasonable conduct by people making complaints

We are committed to being accessible and responsive to all people who approach us with feedback or complaints. At the same time our success depends on:

- our ability to do our work and perform our functions in the most effective and efficient way possible
- the health, safety and security of our staff, and
- our ability to allocate our resources fairly across all the complaints we receive.

When people behave unreasonably in their dealings with us, their conduct can significantly affect the progress and efficiency of our work. As a result, we will take proactive and decisive action to manage any conduct that negatively and unreasonably affects us and will support our staff to do the same in accordance with this policy.

For further information on managing unreasonable conduct by people making complaints please see the *Ombudsman's Managing Unreasonable Conduct Model Policy 2012*.

Security and confidentiality of information

When addressing complaints staff should remain aware they are subject to the UrbanGrowth NSW Code of Conduct at all times and must not discuss any information of a confidential nature including the Cabinet process or information or any other sensitive NSW government information that is not in the public arena.

Reporting on UrbanGrowth NSW's external complaint handling

Senior management provide reports to the Chief Executive Officer on issues arising from complaint handling work, as necessary.

Contact Details of External Investigative Authorities

Where a person making a complaint is dissatisfied with the outcome of UrbanGrowth NSW's review of their complaint, they may seek an external review of our decision (by the Ombudsman for example).

Despite the Tiered approach, a complainant has the right at any time to escalate his or her complaint to an agency that is external to UrbanGrowth NSW.
